

UNIVERSAL ROUND BAR™ RETRACTION SYSTEMS

The Universal Round Bar™ System by Mediflex® features a strong, one-piece frame for abdominal and pelvic procedures, while also offering a bilateral approach well suited for upper abdominal, liver transplant, and bariatric surgery. The Universal Round Bar™ System is a cost-effective retraction solution designed to ensure consistent surgical exposure, even in the most complex procedures.

Pancreatic Necrosectomy with Cholecystectomy
General / Bariatric Surgery

Bilateral Systems for Liver Transplants
and Upper Abdominal Procedures
